

From the Italian lighting brand [Formaminima](#) comes the Curiosité Collection of handmade, decorative crystal boxes. Partly-mirrored planes of pink (Dazzle), clear (Sunrise), or dark gray (Zentih) glass intersect to create a trompe l'oeil effect that changes with your perspective. Depending on how and when you look at it, the rosy Dazzle set, might evoke a Nordic sunrise, midsummer rays at the height of the day, and the glittering sea on a sunny day.
